## Phospho-MCM3 (Ser112) (D3S4M) Rabbit

Orders:	877-616-CELL (2355) orders@cellsignal.com
Support:	877-678-TECH (8324)
Web:	info@cellsignal.com cellsignal.com

3 Trask Lane | Danvers | Massachusetts | 01923 | USA

For Research Use Only. Not for Use in Diagnostic Procedures.

Applications: W, IP	Reactivity: H	<b>Sensitivity:</b> Endogenous	<b>MW (kDa):</b> 100	Source/Isotype: Rabbit IgG	UniProt ID: #P25205	Entrez-Gene Id: 4172
Product Usage Information	2	Application Western Blotting Immunoprecipitation			<b>Dilution</b> 1:1000 1:200	
Storage		Supplied in 10 mM sodium HEPES (pH 7.5), 150 mM NaCl, 100 μg/ml BSA, 50% glycerol and less than 0.02% sodium azide. Store at –20°C. Do not aliquot the antibody.				
Specificity/Ser	sitivity		at Ser112. This and	mAb recognizes endoge ibody also recognizes a		
Species predic based on 100% homology		Mouse, Rat, Hamster, Z	Zebrafish, Dog			
Source / Purifi	cation			nunizing animals with a s Ser112 of human MCM3		eptide
Background		initiation and elongatic complex that is though a key component of th MCM complex to the o pre-RC and licensing th DNA to replicate only of malignant cell growth MCM6 subunits appea CDK1 phosphorylation initiate complex forma by cdc7/dbf4 coincides DNA replication, causin Studies have shown th	on of DNA replication to act as a replic e pre-replication contrigin recognition of the DNA for replication once per cell cycle, do not occur (revier rs to regulate MCM of MCM3 at Ser11 tion and chromati to with the initiation ng chromatin to be at the MCM compliand assisting in res	M) 2-7 proteins are a fam on. MCM2-7 bind togeth ative helicase at the DNA omplex (pre-RC) (reviewe omplex (ORC) during lat tion (reviewed in 2). Licer thereby helping to ensu wed in 3). Phosphorylati A complex activity and th 2 during late mitosis/eau n loading <i>in vitro</i> (8). Pho of DNA replication (9). Ne come unlicensed throug ex is involved in checkpo starting replication by re	her to form the hete A replication fork (1- ed in 1). Cdc6 and C e mitosis/early G1 p nsing of the chroma re that genetic alte ion of the MCM2, M he initiation of DNA rly G1 phase has be osphorylation of MC MCM proteins are re gh inhibition of pre- bint control by prote	erohexameric MCM -5). This complex is DT1 recruit the bhase forming the rations and CM3, MCM4, and synthesis (6-8). en shown to CM2 at serine 139 emoved during RC reformation. ecting the structure

Limited Uses	Except as otherwise expressly agreed in a writing signed by a legally authorized representative of CST, the following terms apply to Products provided by CST, its affiliates or its distributors. Any Customer's terms and conditions that are in addition to, or different from, those contained herein, unless separately accepted in writing by a legally authorized representative of CST, are rejected and are of no force or effect.		
	Products are labeled with For Research Use Only or a similar labeling statement and have not been approved, cleared, or licensed by the FDA or other regulatory foreign or domestic entity, for any purpose. Customer shall not use any Product for any diagnostic or therapeutic purpose, or otherwise in any manner that conflicts with its labeling statement. Products sold or licensed by CST are provided for Customer as the end-user and solely for research and development uses. Any use of Product for diagnostic, prophylactic or therapeutic purposes, or any purchase of Product for resale (alone or as a component) or other commercial purpose, requires a separate license from CST. Customer shall (a) not sell, license, loan, donate or otherwise transfer or make available any Product to any third party, whether alone or in combination with other materials, or use the Products to manufacture any commercial products, (b) not copy, modify, reverse engineer, decompile, disassemble or otherwise attempt to discover the underlying structure or technology of the Products, or use the Products for the purpose of developing any products or services that would compete with CST products or services, (c) not alter or remove from the Products solely in accordance with CST Product Terms of Sale and any applicable documentation, and (e) comply with any license, terms of service or similar agreement with respect to any third party products or services used by Customer in connection with the Products.
