For Research Use Only. Not for Use in Diagnostic Procedures.

Applications: W, IP	Reactivity: H	Sensitivity: Endogenous	MW (kDa): 36, 38	Source/Isotype: Rabbit	UniProt ID: #O43561	Entrez-Gene Id: 27040		
Product Usage Information	•	Application Western Blotting Immunoprecipitation			Dilution 1:1000 1:50			
Storage		Supplied in 10 mM sodium HEPES (pH 7.5), 150 mM NaCl, 100 μg/ml BSA and 50% glycerol. Store at – 20°C. Do not aliquot the antibody.						
Specificity/Sensitivity		Phospho LAT (Tyr220) Antibody detects endogenous levels of LAT when phosphorylated at tyrosine 220. Tyr220 of LAT, long isoform corresponds to Tyr191 of LAT, short isoform. Weak cross-reactivity with phosphorylated tyrosines 171 and 255 of LAT has been observed.						
Source / Purifi	ource / Purification Polyclonal antibodies are produced by immunizing animals with a synthetic phosphopeptide corresponding to residues around Tyr220 of human LAT. Antibodies are purified by protein A and peptide affinity chromatography.							
Background		LAT, a transmembrane adaptor protein expressed in T, NK, and mast cells, is an important mediator for T cell receptor (TCR) signaling (1). Upon TCR engagement, activated Zap-70 phosphorylates LAT at multiple conserved tyrosine residues within SH2 binding motifs, exposing these motifs as the docking sites for downstream signaling targets (2,3). The phosphorylation of LAT at Tyr171 and Tyr220 enables the binding of Grb2, Gads/SLP-76, PLCγ1, and PI3 kinase through their SH2 domain and translocates them to the membrane. This process eventually leads to activation of the corresponding signaling pathways (1-4).						
Background R	eferences	1. Wonerow, P. and Wa 2. Zhang, W. et al. (199 3. Paz, P. E. et al. (2001 4. Zhang, W. et al. (200	8) <i>Cell</i> 92, 83-92.) <i>Biochem. J.</i> 356, 4	61-71.				
Species Reacti	vity	Species reactivity is de	termined by testin	g in at least one approve	ed application (e.g.,	western blot).		
Western Blot E	Buffer	IMPORTANT: For western blots, incubate membrane with diluted primary antibody in 5% w/v BSA, 1X TBS, 0.1% Tween® 20 at 4°C with gentle shaking, overnight.						
Applications K	ey	W: Western Blotting IP: Immunoprecipitation						
Cross-Reactivi	ty Key	H: Human
