## For Research Use Only. Not for Use in Diagnostic Procedures.

	<b>activity:</b> R Hm Mk	<b>Sensitivity:</b> Endogenous	<b>MW (kDa):</b> 65-78	<b>Source/Isotype:</b> Mouse IgG1	UniProt ID: #P46937	Entrez-Gene Id: 10413
Product Usage Information		Application Western Blotting Immunoprecipitation Immunohistochemistry (Paraffin)			<b>Dilution</b> 1:1000 1:200 1:400	
Storage		Supplied in 10 mM sodium HEPES (pH 7.5), 150 mM NaCl, 100 $\mu$ g/ml BSA, 50% glycerol and less than 0.02% sodium azide. Store at –20°C. Do not aliquot the antibody.				
		For a carrier free (BSA and azide free) version of this product see product #27166.				
Specificity/Sensitivity		YAP (1A12) Mouse mAb recognizes endogenous levels of total YAP protein.				
Source / Purification		Monoclonal antibody is produced by immunizing animals with a recombinant protein corresponding to a fragment of human YAP1 protein.				
Background		domain of Yes. It also In addition to the SH3 WW domains (2-4). Wh specific subcellular co activator by virtue of i PEBP2 and other trans widely recognized as a conserved role in regu Ser109, Ser127) by LA it is sequestered throu	binds to other SH3 binding motif, YAP nile initial studies o mpartments, subsets WW domain intescription factors (5) a central mediator ulating tissue growth kinases promoteugh association wit YAP for subsequen	irst identified based on domain-containing prot contains a PDZ interactif YAP all pointed towards equent studies showed tracting with the PY moti. In its capacity as a tran of the Hippo Pathway, when and organ size (6-8). Ps YAP translocation from 14-3-3 proteins (7-9). Tt phosphorylation by CKAP (10).	eins such as Nck, Con motif, a coiled-cos a role in anchoring hat YAP is a transcr f (PPxY) of the transcriptional co-activation plays a fundanthe hosphorylation at the nucleus to the hese LATS-driven p	rk, Src, and Abl (1). oil domain, and g and targeting to ptional co- cription factor ator, YAP is now nental and widely nultiple sites (e.g., cytoplasm, where hosphorylation

Species Beastivity				g in at least one approve		

**Species Reactivity** 

Species reactivity is determined by testing in at least one approved application (e.g., western blot).

**Western Blot Buffer** 

IMPORTANT: For western blots, incubate membrane with diluted primary antibody in 5% w/v nonfat dry milk, 1X TBS, 0.1% Tween® 20 at  $4^{\circ}$ C with gentle shaking, overnight.

**Applications Key** 

W: Western Blotting IP: Immunoprecipitation IHC-P: Immunohistochemistry (Paraffin)

**Cross-Reactivity Key** 

H: Human M: Mouse R: Rat Hm: Hamster Mk: Monkey

## **Limited Uses**

Except as otherwise expressly agreed in a writing signed by a legally authorized representative of CST, the following terms apply to Products provided by CST, its affiliates or its distributors. Any Customer's terms and conditions that are in addition to, or different from, those contained herein, unless separately accepted in writing by a legally authorized representative of CST, are rejected and are of no force or effect.

Products are labeled with For Research Use Only or a similar labeling statement and have not been approved, cleared, or licensed by the FDA or other regulatory foreign or domestic entity, for any purpose. Customer shall not use any Product for any diagnostic or therapeutic purpose, or otherwise in any manner that conflicts with its labeling statement. Products sold or licensed by CST are provided for Customer as the end-user and solely for research and development uses. Any use of Product for diagnostic, prophylactic or therapeutic purposes, or any purchase of Product for resale (alone or as a component) or other commercial purpose, requires a separate license from CST. Customer shall (a) not sell, license, loan, donate or otherwise transfer or make available any Product to any third party. whether alone or in combination with other materials, or use the Products to manufacture any commercial products, (b) not copy, modify, reverse engineer, decompile, disassemble or otherwise attempt to discover the underlying structure or technology of the Products, or use the Products for the purpose of developing any products or services that would compete with CST products or services, (c) not alter or remove from the Products any trademarks, trade names, logos, patent or copyright notices or markings, (d) use the Products solely in accordance with CST Product Terms of Sale and any applicable documentation, and (e) comply with any license, terms of service or similar agreement with respect to any third party products or services used by Customer in connection with the Products.
