3 Trask Lane | Danvers | Massachusetts | 01923 | USA

For Research Use Only. Not for Use in Diagnostic Procedures.

| Applications: W | Reactivity: H | Sensitivity: Endogenous | MW (kDa): 35, 85 | Source/Isotype: Rabbit IgG | UniProt ID: #P14210 | Entrez-Gene Id: 3082 | | |
|--|---|---|--|--------------------------------------|-------------------------------|-------------------------------|--|--|
| Product Usage Information | | Application Western Blotting | | | Dilution 1:1000 | | | |
| Storage | | Supplied in 140 mM NaCl, 3 mM KCI, 10 mM sodium phosphate (pH 7.4) dibasic, 2 mM potassium phosphate monobasic, 2 mg/mL BSA, and 50% glycerol. Store at –20°C. <i>Do not aliquot the antibody.</i> | | | | | | |
| Specificity/Sen | sitivity | tivity HGF β (D6S7D) XP [®] Rabbit mAb (Biotinylated) recognizes endogenous levels of total HGF protein. | | | | | | |
| Source / Purific | ification Monoclonal antibody is produced by immunizing animals with recombinant protein specific to the carboxy terminus of human HGF protein. | | | | | specific to the | | |
| Description | | This Cell Signaling Technology antibody is conjugated to biotin under optimal conditions. The biotinylated antibody is expected to exhibit the same species cross-reactivity as the unconjugated HGF β (D6S7D) XP [®] Rabbit mAb #52445. | | | | | | |
| Background | | The Hepatocyte Growth Factor (HGF, also known as Scatter Factor) was initially discovered as a mitogenic cytokine that induced hepatocyte replication and proliferation (1-3). HGF is produced by stromal cells where it is processed by extracellular serine proteases into a heterodimer consisting of alpha and beta subunits (4). Through activation of its receptor, cMET, HGF has a wide range of effects beyond hepatocytes that includes angiogenesis, epithelial cell proliferation and morphogenesis, and tissue protection and regeneration (5). The HGF-cMET axis has been associated with several diseases, including cancer, where HGF has been shown to promote invasion, metastasis, and drug resistance (6,7). These research studies suggest that HGF is a potential diagnostic and therapeutic target. | | | | | | |
