

Safety Data Sheet (SDS) According to the REACH Regulation (EC) No. 1907/2006

**Issuing Date:** 2019-06-12

Version: 1

# SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

| Product No   | 1061                       |
|--------------|----------------------------|
| Product name | NF-kB p65 Blocking Peptide |

**Reach registration number** 

This substance/mixture contains only ingredients which have been registered, or are exempt from registration, according to Regulation (EC) No. 1907/2006.

Contains

| Chemical name                | Index No.  | CAS No. |
|------------------------------|------------|---------|
| glycerol (0 - 10%)           | Not Listed | 56-81-5 |
| dimethyl sulfoxide (0 - 10%) | Not Listed | 67-68-5 |

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses

For research use only

#### 1.3. Details of the supplier of the safety data sheet

| Importer (Applicable in EU only)      | Manufacturer                    |
|---------------------------------------|---------------------------------|
| Cell Signaling Technology Europe B.V. | Cell Signaling Technology, Inc. |
| Dellaertweg 9b                        | 3 Trask Lane                    |
| 2316 WZ Leiden                        | Danvers, MA 01923               |
| The Netherlands                       | United States                   |
| TEL: +31 (0)71 7200 200               | TEL: +1 978 867 2300            |
| FAX: +31 (0)71 891 0019               | FAX: +1 978 867 2400            |
|                                       |                                 |

# **SECTION 2: Hazards identification**

### 2.1. Classification of the substance or mixture

#### Regulation (EC) No. 1272/2008

This substance/mixture does not meet the criteria for classification in accordance with Regulation (EC) No. 1272/2008

### 2.2. Label elements

### Supplemental hazard statement(s)

EUH210 - Safety data sheet available on request

### 2.3. Other hazards

0 % of the mixture consists of ingredient(s) of unknown acute toxicity. Causes mild skin irritation. For the full text of the H-phrases & EUH-phrases mentioned in this Section, see Section 16

# **SECTION 3: Composition/information on ingredients**

| Chemical name      | CAS No. | Weight-% | EC No     | Classification<br>(1272/2008)               | REACH<br>Registration<br>Number |
|--------------------|---------|----------|-----------|---|---------------------------------|
| glycerol           | 56-81-5 | 5        | 200-289-5 | -   | no data available               |
| dimethyl sulfoxide | 67-68-5 | 1        | 200-664-3 | Skin Irrit. 2 (H315)<br>Eye Irrit. 2 (H319) | no data available               |

For the full text of the H-phrases & EUH-phrases mentioned in this Section, see Section 16

# **SECTION 4: First aid measures**

#### 4.1. Description of first aid measures

| General advice | Use first aid treatment according to the nature of the injury. When symptoms persist or in all cases of doubt seek medical advice.     |
|----------------|--|
| Inhalation     | Move to fresh air.   |
| Skin contact   | Wash off immediately with soap and plenty of water removing all contaminated clothes and shoes. If symptoms persist, call a physician. |
| Eye contact    | Rinse thoroughly with plenty of water for at least 15 minutes, lifting lower and upper eyelids.<br>Consult a physician.                |
| Ingestion      | Clean mouth with water and afterwards drink plenty of water.   |

#### 4.2. Most important symptoms and effects, both acute and delayed

Mild skin irritation.

#### 4.3. Indication of any immediate medical attention and special treatment needed

Notes to physician Treat symptomatically.

# **SECTION 5: Firefighting measures**

### 5.1. Extinguishing media

Suitable Extinguishing MediaUse extinguishing measures that are appropriate to local circumstances and the<br/>surrounding environment.Unsuitable Extinguishing MediaNo information available.

#### 5.2. Special hazards arising from the substance or mixture

Thermal decomposition can lead to release of irritating gases and vapors.

#### 5.3. Advice for firefighters

Wear self-contained breathing apparatus and protective suit. Use personal protective equipment.

# **SECTION 6: Accidental release measures**

### 6.1. Personal precautions, protective equipment and emergency procedures

|                          | Use personal protective equipment. Avoid contact with skin, eyes and clothing. Ensure adequate ventilation. |
|--------------------------|---|
| For emergency responders | Use personal protection recommended in Section 8.   |

### 6.2. Environmental precautions

Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas.

#### 6.3. Methods and material for containment and cleaning up

| Methods for containment | Prevent further leakage or spillage if safe to do so.                 |
|-------------------------|---|
| Methods for cleaning up | Take up mechanically, placing in appropriate containers for disposal. |

#### 6.4. Reference to other sections

See Sections 8 & 13 for additional information.

# **SECTION 7: Handling and storage**

### 7.1. Precautions for safe handling

Handle in accordance with good industrial hygiene and safety practice.

## 7.2. Conditions for safe storage, including any incompatibilities

Keep container tightly closed in a dry and well-ventilated place.

## 7.3. Specific end use(s)

Use as a laboratory reagent.

# **SECTION 8: Exposure controls/personal protection**

## 8.1. Control parameters

| Chemical name      | European Union            | United Kingdom             | France                   | Spain                    | Germany                    |
|--------------------|---------------------------|----------------------------|--------------------------|--------------------------|----------------------------|
| glycerol           |                           | STEL 30 mg/m <sup>3</sup>  | TWA 10 mg/m <sup>3</sup> | TWA 10 mg/m <sup>3</sup> | Ceiling / Peak: 400        |
|                    |                           | TWA 10 mg/m <sup>3</sup>   |                          |                          | mg/m <sup>3</sup>          |
|                    |                           |                            |                          |                          | TWA: 200 mg/m <sup>3</sup> |
| dimethyl sulfoxide |                           |                            |                          |                          | Skin                       |
|                    |                           |                            |                          |                          | Ceiling / Peak: 100        |
|                    |                           |                            |                          |                          | ppm                        |
|                    |                           |                            |                          |                          | Ceiling / Peak: 320        |
|                    |                           |                            |                          |                          | mg/m <sup>3</sup>          |
|                    |                           |                            |                          |                          | TWA: 50 ppm                |
|                    |                           |                            |                          |                          | TWA: 160 mg/m <sup>3</sup> |
| Chemical name      | Italy                     | Portugal                   | Netherlands              | Finland                  | Denmark                    |

|                    |                           | STEL 320 mg/m <sup>3</sup> |                          |                          |                            |

### 8.2. Exposure controls

#### Appropriate engineering controls Showers, eyewash stations, and ventilation systems.

Individual protection measures, such as personal protective equipmentEye/face protectionSafety glasses with side-shieldsSkin protectionImpervious gloves.Hand protectionWear suitable protective clothing.OtherIn case of inadequate ventilation wear respiratory protection.

#### **Environmental Exposure Controls**

No information available.

## **SECTION 9: Physical and chemical properties**

#### 9.1. Information on basic physical and chemical properties

| Physical state | Liquid                   |
|----------------|--------------------------|
| Appearance     | Clear                    |
| Color          | Colorless                |
| Odor           | Odorless                 |
| Odor Threshold | No information available |

| <u>Property</u><br>pH<br>Melting point/freezing point<br>Initial boiling point and boiling   | <u>Values</u><br>6.8   | Remarks • Method<br>No information available<br>No information available<br>No information available  |

# **SECTION 10: Stability and reactivity**

### 10.1. Reactivity

No information available.

#### 10.2. Chemical stability

Stable under normal conditions.

#### 10.3. Possibility of hazardous reactions

| Hazardous polymerization | Hazardous polymerization does not occur. |
|--------------------------|--|
| Hazardous reactions      | None under normal processing.            |
|                          |  |

#### 10.4. Conditions to avoid

Strong oxidizing agents.

#### 10.5. Incompatible materials

No information available.

### 10.6. Hazardous decomposition products

Carbon oxides (COx).

# **SECTION 11: Toxicological information**

#### 11.1. Information on toxicological effects

This material should only be handled by, or under the close supervision of, those properly qualified in the handling and use of potentially hazardous chemicals. It should be borne in mind that the toxicological and physiological properties of this compound is not well defined.

| Chemical name      | LD50 Oral           | LD50 Dermal         | LC50 Inhalation      |
|--------------------|---------------------|---------------------|----------------------|
| glycerol           | = 12600 mg/kg (Rat) | > 10 g/kg (Rabbit)  | > 570 mg/m³ (Rat)1 h |
| dimethyl sulfoxide | 14500 mg/kg ( Rat ) | 40000 mg/kg ( Rat ) | -                    |

**Unknown Acute Toxicity** 

0 % of the mixture consists of ingredient(s) of unknown acute toxicity.

#### Information on likely routes of exposure

| Inhalation                        | There is no data available for this product. |
|-----------------------------------|--|
| Eye contact                       | There is no data available for this product. |
| Skin contact                      | May cause irritation.                        |
| Ingestion                         | There is no data available for this product. |
| Symptoms                          | Mild skin irritation.                        |
| Skin corrosion/irritation         | No information available.                    |
| Serious eye damage/eye irritation | No information available.                    |
| Sensitization                     | No information available.                    |
| Mutagenic effects                 | No information available.                    |
| Carcinogenic effects              | No information available.                    |
| Reproductive toxicity             | No information available.                    |
| STOT - single exposure            | No information available.                    |
| STOT - repeated exposure          | No information available.                    |
| Aspiration Hazard                 | No information available.                    |
| Other information                 | No information available.                    |

# **SECTION 12: Ecological information**

12.1. Toxicity

#### Unknown Aquatic Toxicity

1.4857% of the mixture consists of components of unknown hazards to the aquatic environment.

## 12.2. Persistence and degradability

No information available.

#### 12.3. Bioaccumulative potential

| Bioaccumulation                      | No information available. |
|--------------------------------------|---------------------------|
| <b>Bioconcentration factor (BCF)</b> | No information available. |

| Chemical name      | Octanol-Water Partition Coefficient |
|--------------------|-------------------------------------|
| glycerol           | -1.76                               |
| dimethyl sulfoxide | -2.03                               |

### 12.4. Mobility in soil

No information available.

### 12.5. Results of PBT and vPvB assessment

No information available.

#### 12.6. Other adverse effects

No information available

# **SECTION 13: Disposal considerations**

### 13.1. Waste treatment methods

| Waste from residues / unused<br>products | Dispose of in accordance with local regulations.  |
|--|---|
| Contaminated packaging                   | Empty containers should be taken to an approved waste handling site for recycling or<br>disposal.   |
| Other information                        | Waste codes should be assigned by the user based on the application for which the product was used. |

# **SECTION 14: Transport information**

### IMDG/IMO

|                                     | Net as surface of |
