

**Safety Data Sheet (SDS)** According to the OSHA Hazard Communication Standard 29 CFR 1910.1200

**Issuing Date:** 2017-10-26

**Revision Date:** 2025-06-25

**Version:** 2

## SECTION 1. Identification

### Product identifier

**Product No** 38527  
**Product name** CD3 (17A2) Rat mAb (violetFluor 450 Conjugate)

### Recommended use of the chemical and restrictions on use

**Identified uses** For Research Use Only. Not for Use in Diagnostic Procedures.

### Manufacturer, importer, supplier

**Manufacturer address** Cell Signaling Technology, Inc.  
3 Trask Lane  
Danvers, MA 01923  
United States  
TEL: +1 978 867 2300  
FAX: +1 978 867 2400  
**Website** www.cellsignal.com  
**Email address** support@cellsignal.com  
**Emergency telephone number** In case of emergency call CHEMTREC 1-800-424-9300

## SECTION 2. Hazard(s) identification

### Classification

This substance/mixture is not considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

### GHS Label elements, including precautionary statements

#### **Signal Word**

None

#### **Hazard statement(s)**

None

#### **Precautionary Statement(s)**

None.

### Supplementary Hazard Information

#### **Hazards not otherwise classified (HNOC)**

Not applicable.

**SECTION 3. Composition/information on ingredients**

| Chemical name | CAS No.    | Weight-% |
|---------------|------------|----------|
| sodium azide  | 26628-22-8 | 0.09     |

**SECTION 4. First-aid measures**

|                     |                                                                                                                                |
|---------------------|--------------------------------------------------------------------------------------------------------------------------------|
| <b>Eye contact</b>  | Rinse thoroughly with plenty of water, also under the eyelids.                                                                 |
| <b>Skin contact</b> | Wash skin with soap and water. Remove contaminated clothing and shoes. Consult a physician if necessary.                       |
| <b>Inhalation</b>   | Move to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Consult a physician. |
| <b>Ingestion</b>    | Clean mouth with water. Consult a physician.                                                                                   |

**Most important symptoms and effects, both acute and delayed**

No information available.

**Indication of any immediate medical attention and special treatment needed**

Treat symptomatically.

**Advice for emergency responders**

|                                   |                                                                                                                 |
|-----------------------------------|-----------------------------------------------------------------------------------------------------------------|
| <b>General advice</b>             | For further assistance, contact your local Poison Control Center.                                               |
| <b>Protection of first-aiders</b> | Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves |

**SECTION 5. Fire-fighting measures****Extinguishing media**

**Suitable Extinguishing Media** Dry chemical, CO2, water spray or alcohol-resistant foam.

**Unsuitable Extinguishing Media** No information available

**Specific hazards arising from the chemical**

No information available.

**Explosion Data**

|                                         |      |
|-----------------------------------------|------|
| <b>Sensitivity to Mechanical Impact</b> | None |
| <b>Sensitivity to Static Discharge</b>  | None |

**Protective Equipment and Precautions for Firefighters**

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

**SECTION 6. Accidental release measures****Personal precautions, protective equipment and emergency procedures**

**For non-emergency personnel** Avoid breathing vapors or mists.  
**Other information** No information available.

#### Environmental precautions

Cover discharges with foam in order to reduce the risks of ignition. Prevent further leakage or spillage if safe to do so. Prevent product from entering drains. Prevent entry into waterways, sewers, basements or confined areas.

#### Methods and material for containment and cleaning up

**Methods for containment** Prevent further leakage or spillage if safe to do so.  
**Methods for cleaning up** Soak up with inert absorbent material. Pick up and transfer to properly labeled containers.

### SECTION 7. Handling and storage

#### Precautions for safe handling

Wear personal protective equipment. See section 8. Avoid contact with skin, eyes and clothing. Remove and wash contaminated clothing before re-use.

#### Conditions for safe storage, including any incompatibilities

**Technical measures/Storage conditions** Keep containers tightly closed in a dry, cool and well-ventilated place.  
**Packaging material** No information available  
**Incompatible products** Strong oxidizing agents, Strong acids

### SECTION 8. Exposure controls/personal protection

#### Control Parameters

| Chemical name | ACGIH TLV                                                                              | OSHA PEL | NIOSH REL                                          |
|---------------|----------------------------------------------------------------------------------------|----------|----------------------------------------------------|
| sodium azide  | Ceiling: 0.29 mg/m <sup>3</sup> Sodium azide<br>Ceiling: 0.11 ppm Hydrazoic acid vapor | -        | Ceiling: 0.1 ppm<br>Ceiling: 0.3 mg/m <sup>3</sup> |

#### Appropriate engineering controls

Showers, eyewash stations, and ventilation systems.

#### Individual protection measures, such as personal protective equipment

**Eye/face protection** Safety glasses with side-shields  
**Skin and body protection** Wear protective gloves/clothing.  
**Respiratory protection** In case of inadequate ventilation wear respiratory protection.  
**Hygiene measures** Handle in accordance with good industrial hygiene and safety practice.

### SECTION 9. Physical and chemical properties

#### Information on basic physical and chemical properties

**Physical state** Liquid  
**Appearance** No information available  
**Color** No information available  
**Odor** No information available  
**Odor Threshold** No information available

| <u>Property</u>                                          | <u>Values</u>             | <u>Remarks • Method</u> |
|----------------------------------------------------------|---------------------------|-------------------------|
| pH                                                       | 7.2                       |                         |
| Melting point/freezing point                             | No information available  |                         |
| Boiling point or initial boiling point and boiling range | No information available  |                         |
| Flash point                                              | No information available  |                         |
| Evaporation rate                                         | No information available  |                         |
| Flammability                                             | No information available  |                         |
| Lower explosion limit                                    | No information available  |                         |
| Upper explosion limit                                    | No information available  |                         |
| Vapor pressure                                           | No information available  |                         |
| Relative vapor density                                   | No information available  |                         |
| Specific gravity                                         | No information available  |                         |
| Solubility                                               | No information available. |                         |
| Solubility in other solvents                             | No information available. |                         |
| Partition coefficient: n-octanol/water                   | No information available  |                         |
| Autoignition temperature                                 | No information available  |                         |
| Hyphen                                                   | No information available  |                         |
| Viscosity                                                | No information available  |                         |
| Viscosity, dynamic                                       | No information available  |                         |
| <u>Other information</u>                                 |                           |                         |
| Softening point                                          | No information available  |                         |
| Molecular Weight                                         | No information available  |                         |
| VOC content                                              | No information available  |                         |
| Liquid Density                                           | No information available  |                         |
| Bulk density                                             | No information available  |                         |

## SECTION 10. Stability and reactivity

### Reactivity

No information available.

### Chemical stability

Stable under recommended storage conditions.

### Possibility of hazardous reactions

|                                 |                               |
|---------------------------------|-------------------------------|
| <b>Hazardous reactions</b>      | None under normal processing. |
| <b>Hazardous polymerization</b> | None under normal processing. |

### Conditions to Avoid

Over a period of time, sodium azide may react with copper, lead, brass, or solder in plumbing systems to form an accumulation of the HIGHLY EXPLOSIVE compounds of lead azide & copper azide.

### Incompatible materials

Strong oxidizing agents, Strong acids

### Hazardous decomposition products

Nitrogen oxides (NO<sub>x</sub>)

## SECTION 11. Toxicological information

**Information on likely routes of exposure**

|                     |                                                                                 |
|---------------------|---------------------------------------------------------------------------------|
| <b>Inhalation</b>   | Avoid breathing vapors or mists. May cause irritation of respiratory tract.     |
| <b>Eye contact</b>  | Avoid contact with eyes. May cause slight irritation.                           |
| <b>Skin contact</b> | Avoid contact with skin.                                                        |
| <b>Ingestion</b>    | Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea. |

**Symptoms related to the physical, chemical and toxicological characteristics**

This material should only be handled by, or under the close supervision of, those properly qualified in the handling and use of potentially hazardous chemicals. It should be borne in mind that the toxicological and physiological properties of this compound is not well defined.

| Chemical name | Oral LD50        | Dermal LD50                              | Inhalation LC50               |
|---------------|------------------|------------------------------------------|-------------------------------|
| sodium azide  | = 27 mg/kg (Rat) | = 20 mg/kg ( Rabbit ) = 50 mg/kg ( Rat ) | 0.054 - 0.52 mg/L ( Rat ) 4 h |

**Delayed and immediate effects as well as chronic effects from short and long-term exposure**

|                                 |                                                                                                                                                                          |
|---------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Symptoms</b>                 | No information available.                                                                                                                                                |
| <b>Sensitization</b>            | No information available.                                                                                                                                                |
| <b>Mutagenic effects</b>        | No information available.                                                                                                                                                |
| <b>Carcinogenicity</b>          | No component of this product present at levels greater than or equal to 0.1% is identifiable as probable, possible or confirmed carcinogen by IARC, ACGIH, NTP, or OSHA. |
| <b>Reproductive toxicity</b>    | No information available.                                                                                                                                                |
| <b>STOT - single exposure</b>   | No information available.                                                                                                                                                |
| <b>STOT - repeated exposure</b> | No information available.                                                                                                                                                |
| <b>Neurological effects</b>     | No information available.                                                                                                                                                |
| <b>Aspiration Hazard</b>        | No information available.                                                                                                                                                |

**SECTION 12. Ecological information****Ecotoxicity**

| Chemical name | Algae/aquatic plants                                     | Fish                                                                                                                                 | Crustacea                               |
|---------------|----------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------|
| sodium azide  | EC50 0.35 mg/L<br>(Pseudokirchneriella subcapitata) 96 h | LC50: =0.8mg/L (96h, Oncorhynchus mykiss)<br>LC50: =0.7mg/L (96h, Lepomis macrochirus)<br>LC50: =5.46mg/L (96h, Pimephales promelas) | LC100 1 mg/L (Orconectes rusticus) 96 h |

|                                      |                          |
|--------------------------------------|--------------------------|
| <b>Persistence and degradability</b> | No information available |
| <b>Mobility</b>                      | No information available |
| <b>Bioaccumulation</b>               | No information available |

**Other adverse effects**

No information available

**SECTION 13. Disposal considerations****Waste Disposal Methods**

Dispose of in accordance with all applicable national environmental laws and regulations.

**Disposal considerations**

Do not empty into drains; dispose of this material and its container in a safe way. Dispose of wastes in an approved waste disposal facility.

|                                          |
|------------------------------------------|
| <b>SECTION 14. Transport information</b> |
|------------------------------------------|

This material is not subject to regulation as a hazardous material for shipping.

|                                           |
|-------------------------------------------|
| <b>SECTION 15. Regulatory information</b> |
|-------------------------------------------|

**North American Inventory Listing**

All components of this product are NOT included on the Toxic Substance Control Act (TSCA) Inventory, DSL, or NDSL All components of this product are NOT included on DSL or NDSL

| Chemical name | TSCA 8(b) | TSCA 12(b) | DSL    | NDSL       |
|---------------|-----------|------------|--------|------------|
| sodium azide  | Listed    | Not Listed | Listed | Not Listed |

**Canadian Workplace Hazardous Materials Information System (WHMIS) Classification**

This product does not meet the criteria for classification under the Hazardous Products Act.

**SARA 313**

Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product does not contain any chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372.

| Chemical name | CAS No.    | SARA 313 - Threshold Values % |
|---------------|------------|-------------------------------|
| sodium azide  | 26628-22-8 | 1.0                           |

**SARA 311/312 Hazard Categories**

|                                   |    |
|-----------------------------------|----|
| Acute health hazard               | No |
| Chronic Health Hazard             | No |
| Fire hazard                       | No |
| Sudden Release of Pressure Hazard | No |
| Reactive Hazard                   | No |

**Clean Water Act**

This product does not contain any substances regulated as pollutants pursuant to the Clean Water Act (40 CFR 122.21 and 40 CFR 122.42).

**CERCLA**

This material, as supplied, does not contain any substances regulated as hazardous substances under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302) or the Superfund Amendments and Reauthorization Act (SARA) (40 CFR 355). There may be specific reporting requirements at the local, regional, or state level pertaining to releases of this material.

| Chemical name | Hazardous Substances RQs | Extremely Hazardous Substances RQs |
|---------------|--------------------------|------------------------------------|
| sodium azide  | 1000 lb                  | 1000 lb                            |

**California Proposition 65**

This product does not contain any Proposition 65 chemicals.

**U.S. State Right-to-Know Regulations**

This product does not contain any substances regulated under applicable state right-to-know regulations

| Chemical name | New Jersey | Massachusetts | Pennsylvania |
|---------------|------------|---------------|--------------|
| water         | Not Listed | Not Listed    | Listed       |
| sodium azide  | Listed     | Listed        | Listed       |

**U.S. FIFRA Label Information**

This product does not contain any substances regulated as pesticides.

**US Commerce Department - Export Administration Regulations Information**

This product does not contain any substances regulated under the Chemical Weapons Convention (CWC).

**U.S. Drug Enforcement Administration Information**

This product does not contain any substances regulated under the DEA.
