### **SECTION 2: Hazards identification**

#### 2.1. Classification of the substance or mixture

#### Regulation (EC) No. 1272/2008

Classification and label elements described below are inclusive of all hazards of the combined kit. The most severe classifications are listed for each endpoint. Refer to individual kit component SDS for classification and label elements for each component present in the kit.

| Skin corrosion/irritation         | Category 1 - (H314) |
|-----------------------------------|---------------------|
| Serious eye damage/eye irritation | Category 1 - (H318) |
| Skin sensitization                | Category 1 - (H317) |
| Chronic aquatic toxicity          | Category 3 - (H412) |

#### 2.2. Label elements

Signal word Danger

#### Hazard statement(s)

H314 - Causes severe skin burns and eye damage.

H317 - May cause an allergic skin reaction.

H412 - Harmful to aquatic life with long lasting effects.

#### Precautionary statement(s)

P260 - Do not breathe dust/fume/gas/mist/vapors/spray.

P264 - Wash face, hands and any exposed skin thoroughly after handling.

P272 - Contaminated work clothing should not be allowed out of the workplace.

P273 - Avoid release to the environment.

P280 - Wear protective gloves/protective clothing/eye protection/face protection.

P301 + P330 + P331 - IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

P303 + P361 + P353 - IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. P304 + P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.

P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P310 - Immediately call a POISON CENTER or doctor/physician.

P333 + P313 - If skin irritation or rash occurs: Get medical advice/attention.

P363 - Wash contaminated clothing before reuse.

P405 - Store locked up.

P501 - Dispose of contents/container to an approved waste disposal plant.

#### 2.3. Other hazards

This kit contains one or more components considered a treated article that incorporates a biocidal product as a preservative with the following active ingredient: Mixture of 5-chloro-2-methyl-2H- isothiazol-3-one (EINECS 247-500-7) and 2-methyl-2H-isothiazol-3-one (EINECS 220-239-6) (Mixture of CMIT/MIT).

Polyethylene glycol p-(1,1,3,3-tetramethylbutyl)phenylether (CAS no. 9002-93-1) is a suspected endocrine disruptor. Endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100(3) or Commission Regulation (EU) 2018/605(4).

For the full text of the H-phrases & EUH-phrases mentioned in this Section, see Section 16

### **SECTION 3. Composition/information on ingredients**

#### **Kit Component**

#### 7002: STOP Solution

DANGER: Causes severe skin burns and eye damage. May cause an allergic skin reaction.

| Chemical name | CAS No   | Weight-% | EC No     | Classification<br>(1272/2008)   | REACH<br>Registration<br>Number |
|---------------|----------|----------|-----------|---|---------------------------------|

This product is considered a treated article that incorporates a biocidal product as a preservative with the following active ingredient: Mixture of 5-chloro-2-methyl-2H- isothiazol-3-one (EINECS 247-500-7) and 2-methyl-2H-isothiazol-3-one (EINECS 220-239-6) (Mixture of CMIT/MIT)

#### Kit Component

#### 97125: HER3/ErbB3 Rabbit mAb Coated Microwells 12982: Phospho Tyrosine Mouse Detection mAb 13304: Anti-mouse IgG, HRP-linked Antibody (ELISA Formulated) 7004: TMB Substrate

These products do not contain substances at concentrations requiring disclosure under (EC) No. 1907/2006 (REACH).

For the full text of the H-phrases & EUH-phrases mentioned in this Section, see Section 16

### **SECTION 4: First aid measures**

#### 4.1. Description of first aid measures

| General advice | Use first aid treatment according to the nature of the injury. When symptoms persist or in all cases of doubt seek medical advice.  |
|----------------|---|
| Inhalation     | IF INHALED: Remove to fresh air and keep at rest in a position comfortable for breathing.<br>Get medical attention immediately if symptoms occur. If breathing is difficult, give oxygen. |
| Skin contact   | Wash off immediately with soap and plenty of water removing all contaminated clothes and shoes. Immediate medical attention is required.  |
| Eye contact    | Immediate medical attention is required. Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes.   |
| Ingestion      | Get medical attention. Clean mouth with water and afterwards drink plenty of water. Do NOT induce vomiting. Never give anything by mouth to an unconscious person.                        |

#### 4.2. Most important symptoms and effects, both acute and delayed

Contains kit components which may cause the following effects, refer to individual component SDSs for full information on symptoms. Corrosive. Significant esophageal or gastrointestinal tract irritation or burns may occur following ingestion. Liquid, aerosols and vapors of this product are irritating and can cause pain, tearing, reddening and swelling accompanied by a stinging sensation and/or a feeling like that of fine dust in the eyes. Respiratory tract irritation, if severe, can progress to pulmonary edema which may be delayed in onset up to 24 to 72 hours after exposure in some cases. Contains an animal derived biological. May produce an allergic reaction in susceptible individuals. Symptoms of allergic reaction may include rash, itching, swelling, trouble breathing, tingling of the hands and feet, dizziness, lightheadedness, chest pain, muscle pain, or flushing.

#### 4.3. Indication of any immediate medical attention and special treatment needed

Notes to physician

Probable mucosal damage may contraindicate the use of gastric lavage.

### **SECTION 5: Firefighting measures**

#### 5.1. Extinguishing media

Suitable Extinguishing Media

Unsuitable Extinguishing Media

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment No information available

#### 5.2. Special hazards arising from the substance or mixture

The product causes burns of eyes, skin and mucous membranes. Thermal decomposition can lead to release of irritating gases and vapors. In the event of fire and/or explosion do not breathe fumes.

#### 5.3. Advice for firefighters

Wear self-contained breathing apparatus and protective suit. Use personal protective equipment.

### **SECTION 6: Accidental release measures**

#### 6.1. Personal precautions, protective equipment and emergency procedures

| For non-emergency personnel | Avoid contact with skin, eyes and clothing. Use personal protective equipment. Evacuate |
|-----------------------------|---|
|                             | personnel to safe areas. Keep people away from and upwind of spill/leak.                |
| For emergency responders    | Use personal protection recommended in Section 8.                                       |
| Other information           | Refer to protective measures listed in Sections 7 and 8.                                |

#### 6.2. Environmental precautions

Do not allow material to contaminate ground water system. Should not be released into the environment. Do not flush into surface water or sanitary sewer system. Prevent further leakage or spillage if safe to do so. Prevent product from entering drains.

#### 6.3. Methods and material for containment and cleaning up

| Methods for containment<br>Methods for cleaning upPrevent further leakage or spillage if safe to do so.<br>Take up mechanically, placing in appropriate containers for disposal. Dike far ahead<br>liquid spill for later disposal. Soak up with inert absorbent material. Clean contaminat<br>surface thoroughly. Prevent product from entering drains. Dam up. After cleaning, flu<br>away traces with water. |
|---|
|---|

#### 6.4. Reference to other sections

See Sections 8 & 13 for additional information.

### **SECTION 7: Handling and storage**

#### 7.1. Precautions for safe handling

Avoid contact with skin, eyes and clothing. Wear personal protective equipment. Ensure adequate ventilation. In case of insufficient ventilation, wear suitable respiratory equipment. Handle product only in closed system or provide appropriate exhaust ventilation at machinery.

#### 7.2. Conditions for safe storage, including any incompatibilities

Keep away from direct sunlight. Keep containers tightly closed in a dry, cool and well-ventilated place.

#### 7.3. Specific end use(s)

Use as a laboratory reagent.

### **SECTION 8: Exposure controls/personal protection**

#### 8.1. Control parameters

| Occupational exposure limit values                      |                                  |                                |                                  |                                  |  |

#### 8.2. Exposure controls

#### Appropriate engineering controls

Showers, eyewash stations, and ventilation systems

| Individual protection measures, such as personal protective equipment |   |  |  |  |
|---|---|--|--|--|
| Eye/face protection   | Tightly fitting safety goggles Face-shield                    |  |  |  |
| Skin protection   | Wear protective gloves and protective clothing                |  |  |  |
| Hand protection   | Impervious gloves   |  |  |  |
| Other   | Wear suitable protective clothing.                            |  |  |  |
| Respiratory protection  | In case of inadequate ventilation wear respiratory protection |  |  |  |
|   |   |  |  |  |

### Environmental Exposure Controls

No information available

#### **SECTION 9.** Physical and chemical properties

#### 9.1. Information on basic physical and chemical properties

Information on the known physical chemical properties of each component within Kit are given below. If not included, information is either not available or not applicable. Refer to individual kit component SDS for further information.

**Kit Component** 

7004: TMB Substrate

Physical state Appearance Color pH

**Microwell Plate** 

### **SECTION 10: Stability and reactivity**

#### 10.1. Reactivity

No information available.

#### 10.2. Chemical stability

Stable under normal conditions.

#### 10.3. Possibility of hazardous reactions

| Hazardous polymerization | Hazardous polymerization does not occur. |
|--------------------------|--|
| Hazardous reactions      | None under normal processing             |

#### 10.4. Conditions to avoid

Extremes of temperature and direct sunlight. Over a period of time, sodium azide may react with copper, lead, brass, or solder in plumbing systems to form an accumulation of the HIGHLY EXPLOSIVE compounds of lead azide & copper azide.

#### 10.5. Incompatible materials

Incompatible with strong acids and bases, Incompatible with oxidizing agents.

#### 10.6. Hazardous decomposition products

Thermal decomposition can lead to release of toxic/corrosive gases and vapors

### **SECTION 11: Toxicological information**

#### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

### **Product Information**

Refer to kit component SDS for full toxicological information. This material should only be handled by, or under the close supervision of, those properly qualified in the handling and use of potentially hazardous chemicals. It should be borne in mind that the toxicological and physiological properties of this compound is not well defined.

| Symptoms                           | Contains kit components which may cause the following effects, refer to individual  |

| component SDSs for full information on symptoms. Corrosive. Significant esophageal or gastrointestinal tract irritation or burns may occur following ingestion. Liquid, aerosols and vapors of this product are irritating and can cause pain, tearing, reddening and swelling accompanied by a stinging sensation and/or a feeling like that of fine dust in the eyes. Respiratory tract irritation, if severe, can progress to pulmonary edema which may be delayed in onset up to 24 to 72 hours after exposure in some cases. Contains an animal derived biological. May produce an allergic reaction in susceptible individuals. Symptoms of allergic reaction may include rash, itching, swelling, trouble breathing, tingling of the hands and feet, dizziness, lightheadedness, chest pain, muscle pain, or flushing. |

11.2. Information on other hazards

Other adverse effects

No information available.

### **SECTION 12: Ecological information**

### 12.1. Toxicity

#### **Product Information**

| Kit Component | 7002: STOP Solution   |
|---------------|-----------------------|
| Ecotoxicity   | Toxic to aquatic life |
|               |                       |

#### Kit Component 9801: ELISA Wash Buffer (20X) Ecotoxicity Harmful to aquatic life with long lasting effects

#### **Component Information**

| Chemical name   | Toxicity to algae   | Toxicity to fish                            | Toxicity to daphnia and other<br>aquatic invertebrates  |
|---|---|---|---|
| polyethylene glycol<br>p-(1,1,3,3-tetramethylbutyl)phenylet<br>her  | -   | LC50 8.9 mg/l (Pimephales<br>promelas) 96 h | EC50 26 mg/l (Daphnia) 48 h   |
| maleic acid   | -   | LC50 5 mg/L (Pimephales promelas)<br>96 h   | EC50 250 - 400 mg/L (Daphnia<br>magna) 48 h   |
| trometamol  | -   | -   | NOEC >100 mg/L (Selenastrum<br>capricornutum) 96 h  |
| sodium azide  | EC50 0.35 mg/L<br>(Pseudokirchneriella subcapitata) 96<br>h   | 5 (   | LC100 1 mg/L (Orconectes rusticus)<br>96 h  |
| reaction mass of:<br>5-chloro-2-methyl-4-isothiazolin-3-o<br>ne [EC no. 247-500-7] and<br>2-methyl-2H -isothiazol-3-one [EC<br>no. 220-239-6] (3:1) | EC50 0.11 - 0.16 mg/L<br>(Pseudokirchneriella subcapitata) 72<br>h EC50 0.31 mg/L (Anabaena<br>flos-aquae) 120 h EC50 0.03 - 0.13<br>mg/L (Pseudokirchneriella<br>subcapitata) 96 h |   | EC50 4.71 mg/L (Daphnia magna)<br>48 h EC50 0.71 - 0.99 mg/L<br>(Daphnia magna) 48 h EC50 0.12 -<br>0.3 mg/L (Daphnia magna) 48 h |

#### 12.2. Persistence and degradability

| Kit Component                 | 7002: STOP Solution           |
|-------------------------------|-------------------------------|
| Persistence and degradability | Product is biodegradable      |
| Kit Component                 | 9801: ELISA Wash Buffer (20X) |
| Persistence and degradability | Not readily biodegradable     |

12.3. Bioaccumulative potential

#### **Kit Component**

7002: STOP Solution

Bioaccumulation

Not likely to bioaccumulate

Kit Component Bioaccumulation 9801: ELISA Wash Buffer (20X) Not likely to bioaccumulate

| Chemical name | Octanol-Water Partition Coefficient |
|---------------|-------------------------------------|
| maleic acid   | 0.32                                |

#### 12.4. Mobility in soil

| <b>Kit Component</b> | <b>7002: STOP Solution</b>   |
|----------------------|--|
| Mobility             | Will likely be mobile in the environment due to its water solubility |
| <b>Kit Component</b> | 9801: ELISA Wash Buffer (20X)  |
| Mobility             | Will likely be mobile in the environment due to its water solubility |

#### 12.5. Results of PBT and vPvB assessment

No information available.

#### 12.6. Endocrine disrupting properties

| Chemical name                        | EU - Endocrine Disruptors<br>Candidate List | EU - Endocrine Disruptors -<br>Evaluated Substances | Japan - Endocrine Disruptor<br>Information |
|--------------------------------------|---|---|--|
| polyethylene glycol                  | Endocrine disrupting properties,            | -   | -  |
| p-(1,1,3,3-tetramethylbutyl)phenylet | Article 57f - environment                   |   |  |
| her                                  |   |   |  |

#### 12.7. Other adverse effects

No information available

### **SECTION 13: Disposal considerations**

#### 13.1. Waste treatment methods

| Waste from residues / unused<br>products | Dispose of in accordance with local regulations.  |
|--|---|
| Contaminated packaging                   | Empty containers should be taken to an approved waste handling site for recycling or disposal.      |
| Other information                        | Waste codes should be assigned by the user based on the application for which the product was used. |

### **SECTION 14: Transport information**

This material is subject to regulation as a hazardous material for shipping:

| IMDO | <u>G/IMO</u>                 |   |
|------|------------------------------|---|
| 14.1 | UN number                    | UN3265  |
| 14.2 | UN proper shipping name      | Corrosive liquid, acidic, organic, n.o.s. (maleic acid) |
| 14.3 | Transport hazard class(es)   | 8   |
| 14.4 | Packing group                | III   |
| 14.5 | Environmental hazards        | None  |
| 14.6 | Special precautions for user | None  |
| 14.7 | Maritime transport in bulk   | Not regulated   |
|      | •                            |   |
