

Safety Data Sheet (SDS) According to the REACH Regulation (EC) No. 1907/2006

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1. Product identifier

Product No 8058

Product name α-Tubulin (DM1A) Mouse mAb (Alexa Fluor® 488

Conjugate)

Contains

 Chemical name
 Index No.
 CAS No

 sodium azide (<0.1)</td>
 011-004-00-7
 26628-22-8

### 1.2. Relevant identified uses of the substance or mixture and uses advised against

**Identified uses** For Research Use Only. Not for Use in Diagnostic Procedures.

#### 1.3. Details of the supplier of the safety data sheet

Importer Manufacturer

Cell Signaling Technology Europe B.V. Cell Signaling Technology, Inc.

Dellaertweg 9b 3 Trask Lane
2316 WZ Leiden Danvers, MA 01923
The Netherlands United States

TEL: +31 (0)71 7200 200 TEL: +1 978 867 2300 FAX: +31 (0)71 891 0019 FAX: +1 978 867 2400

Website www.cellsignal.com E-mail Address info@cellsignal.eu

## 1.4. Emergency telephone number

**CHEMTREC** 24 hours a day, 7 days a week, 365 days a year +1 703 527 3887 (INTERNATIONAL) +1 800 424 9300 (NORTH AMERICA)

Europe 112

## **SECTION 2: Hazards identification**

## 2.1. Classification of the substance or mixture

### Regulation (EC) No. 1272/2008

This substance is classified as not hazardous according to regulation (EC) 1272/2008 [CLP]

## 2.2. Label elements

Signal word

None.

Hazard statement(s)

None.

Precautionary statement(s)

None.

#### 2.3. Other hazards

May produce an allergic reaction.

For the full text of the H-phrases & EUH-phrases mentioned in this Section, see Section 16

## **SECTION 3: Composition/information on ingredients**

| Chemical name | CAS No     | Weight-% | EC No     | Classification<br>(1272/2008)  | REACH<br>Registration<br>Number |
|---------------|------------|----------|-----------|--|---------------------------------|
| sodium azide  | 26628-22-8 | <0.1     | 247-852-1 | Acute Tox. 2 (H300)<br>Aquatic Acute 1 (H400)<br>Aquatic Chronic 1<br>(H410)<br>(EUH032) | no data available               |

For the full text of the R-phrases mentioned in this Section, see Section 16

### **SECTION 4: First aid measures**

### 4.1. Description of first aid measures

General advice Use first aid treatment according to the nature of the injury. When symptoms persist or in all

cases of doubt seek medical advice.

**Inhalation** Move to fresh air.

**Skin contact** Wash skin with soap and water.

**Eye contact**Rinse thoroughly with plenty of water, also under the eyelids. **Ingestion**Clean mouth with water and afterwards drink plenty of water.

## 4.2. Most important symptoms and effects, both acute and delayed

Symptoms of allergic reaction may include rash, itching, swelling, trouble breathing, tingling of the hands and feet, dizziness, lightheadedness, chest pain, muscle pain, or flushing.

## 4.3. Indication of any immediate medical attention and special treatment needed

Notes to physician Treat symptomatically.

## **SECTION 5: Firefighting measures**

5.1. Extinguishing media

surrounding environment.

Unsuitable Extinguishing Media No information available.

## 5.2. Special hazards arising from the substance or mixture

Thermal decomposition can lead to release of irritating gases and vapors.

#### 5.3. Advice for firefighters

Wear self-contained breathing apparatus and protective suit. Use personal protective equipment.

## **SECTION 6: Accidental release measures**

#### 6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel Avoid contact with skin, eyes and clothing. Use personal protective equipment. For personal

protection see section 8.

#### 6.2. Environmental precautions

Prevent further leakage or spillage if safe to do so. Prevent product from entering drains. Prevent entry into waterways, sewers, basements or confined areas.

#### 6.3. Methods and material for containment and cleaning up

**Methods for containment** Prevent further leakage or spillage if safe to do so.

Methods for cleaning up Soak up with inert absorbent material. Pick up and transfer to properly labeled containers.

#### 6.4. Reference to other sections

See Sections 8 & 13 for additional information.

## **SECTION 7: Handling and storage**

### 7.1. Precautions for safe handling

Wear personal protective equipment. Avoid contact with skin, eyes and clothing. Remove and wash contaminated clothing before re-use.

## 7.2. Conditions for safe storage, including any incompatibilities

Keep container tightly closed in a dry and well-ventilated place. Protect from light.

#### 7.3. Specific end use(s)

Use as a laboratory reagent.

## **SECTION 8: Exposure controls/personal protection**

## 8.1. Control parameters

| Chemical name | European Union             | United Kingdom             | France                     | Spain                      | Germany                    |

|               | TWA 0.1 mg/m <sup>3</sup>  |                                |                            |                            | Skin                       |

#### 8.2. Exposure controls

#### Appropriate engineering controls

Showers, eyewash stations, and ventilation systems.

## Individual protection measures, such as personal protective equipment

**Eye/face protection** Safety glasses with side-shields

**Skin protection** Wear protective gloves and protective clothing

Hand protection Impervious gloves.

Other Wear suitable protective clothing.

Respiratory protection When workers are facing concentrations above the exposure limit they must use appropriate

certified respirators.

#### **Environmental Exposure Controls**

No information available.

## **SECTION 9: Physical and chemical properties**

#### 9.1. Information on basic physical and chemical properties

Physical state Liquid - Clear Color Yellow / Green

Odor No information available

Property Values Remarks • Method

pH 7.2 @ 20 °C

Melting point/freezing point No information available No information available

**Melting point/freezing point**No information available

explosive limits

No information available No information available Vapor pressure Relative vapor density No information available No information available Density and/or relative density No information available No information available Solubility No information available. No information available Partition coefficient: n-octanol/water No information available No information available No information available No information available **Autoignition temperature** No information available No information available. **Decomposition temperature** 

Decomposition temperatureNo information availableNo information availableViscosityNo information availableNo information availableExplosive propertiesNo information availableNo information availableOxidizing propertiesNo information availableNo information available

9.2. Other information

Softening point No information available

Molecular WeightNo information availableSolubility in other solventsNo information availableVOC contentNo information availableLiquid DensityNo information available

# **SECTION 10: Stability and reactivity**

### 10.1. Reactivity

No information available.

#### 10.2. Chemical stability

Stable under normal conditions.

#### 10.3. Possibility of hazardous reactions

Hazardous polymerization Hazardous reactions

Hazardous polymerization does not occur.

None under normal processing.

### 10.4. Conditions to avoid

Extremes of temperature and direct sunlight. Over a period of time, sodium azide may react with copper, lead, brass, or solder in plumbing systems to form an accumulation of the HIGHLY EXPLOSIVE compounds of lead azide & copper azide. Exposure to light.

#### 10.5. Incompatible materials

Strong oxidizing agents, Strong acids.

## 10.6. Hazardous decomposition products

Nitrogen oxides (NOx).

## **SECTION 11: Toxicological information**

## 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

This product is for experimental uses only. The product has not been completely analyzed and all of the hazards may not be known. Please use caution while handling this product.

| Chemical name | LD50 Oral        | LD50 Dermal                      | LC50 Inhalation |
|---------------|------------------|----------------------------------|-----------------|
| sodium azide  | = 27 mg/kg (Rat) | = 20 mg/kg (Rabbit) = 50 mg/kg ( | -               |
|               |                  | Rat )                            |                 |

#### Information on likely routes of exposure

**Inhalation** Avoid breathing vapors or mists. May cause irritation of respiratory tract.

**Eye contact** Avoid contact with eyes. May cause slight irritation.

**Skin contact** Avoid contact with skin.

**Ingestion** Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.

Symptoms Symptoms of allergic reaction may include rash, itching, swelling, trouble breathing, tingling

of the hands and feet, dizziness, lightheadedness, chest pain, muscle pain, or flushing.

**Skin corrosion/irritation**No information available.

Serious eye damage/eye irritation No information available. Sensitization No information available.

SensitizationNo information available.Mutagenic effectsNo information available.CarcinogenicityNo information available.

Reproductive toxicity
STOT - single exposure
STOT - repeated exposure
Aspiration Hazard
No information available.
No information available.
No information available.

#### 11.2. Information on other hazards

No information available.

## **SECTION 12: Ecological information**

## 12.1. Toxicity

| Chemical name | Toxicity to algae                    | Toxicity to fish                  | Toxicity to daphnia and other      |
|---------------|--------------------------------------|-----------------------------------|------------------------------------|
|               |                                      | -                                 | aquatic invertebrates              |
| sodium azide  | EC50 0.35 mg/L                       | LC50 0.8 mg/L (Oncorhynchus       | LC100 1 mg/L (Orconectes rusticus) |
|               | (Pseudokirchneriella subcapitata) 96 | mykiss) 96 h LC50 5.46 mg/L       | 96 h                               |
|               | h                                    | (Pimephales promelas) 96 h LC50   |                                    |
|               |                                      | 0.7 mg/L (Lepomis macrochirus) 96 |                                    |
|               |                                      | h                                 |                                    |

### **Unknown Aquatic Toxicity**

0% of the mixture consists of components of unknown hazards to the aquatic environment.

### 12.2. Persistence and degradability

No information available

### 12.3. Bioaccumulative potential

**Bioaccumulation** No information available.

**Bioconcentration factor (BCF)** No information available.

## 12.4. Mobility in soil

No information available.

## 12.5. Results of PBT and vPvB assessment

No information available.

## 12.6. Endocrine disrupting properties

This product does not contain any known or suspected endocrine disruptors

### 12.7. Other adverse effects

No information available

# **SECTION 13: Disposal considerations**

## 13.1. Waste treatment methods

Waste from residues / unused

products

Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken to an approved waste handling site for recycling or

disposal.

Other information Waste codes should be assigned by the user based on the application for which the product

was used.

# **SECTION 14: Transport information**
