Autophagy

Pathway Diagram Key

- Acetylation
- Apoptosis/Autophagy Regulator
- Deacetylation or Demethylated Protein
- Growth Factor/Mitogen or Development Protein
- GTPase/GAP/GEF
- Metabolic Enzyme
- Methyltransferase or G-Related
- Phosphatase
- Protein Complex
- Receptor
- Ubiquitin/SUMO Lipase or Oxidative Stress
- Transcription Factor or Translation Factor
- Other

Direct Process
- Tentative Process
- Translocation Process
- Stimulatory Modification
- Inhibitory Modification
- Transcriptional Modification
